

Vacancy for Construction Productivity Data Collectors

Adama Science and Technology University and Construction Management institute are carrying out a study on preparation of national productivity norm of building construction trades around Adama city.

Preparation of the productivity norm for the building construction trades needs a collection of productivity data from potential projects in and around Adama city. The study project team would hereby like to invite interested productivity data collectors who fulfil the following criteria:

- 1. Position:** Productivity data collector
 - 2. Qualification:** BSc fresh graduate (Civil Engineering or Construction Technology and Management) and Current MSc student (Construction Technology and Management)
 - 3. Required No:** 30
 - 4. Term of Employment:** contract based for 3 months
 - 5. Place of work:** Adama city (construction site)
 - 6. Deadline:** January 06, 2022, 5:00PM
 - 7. Location:** ASTU, Research park, Office of University Industry Linkage and Consultancy Service, Room 09
- Tel:** +251221110412

Interested applicant shall apply by submitting **CV and Transcript**, and the application deadline postponed from January 06 to January 13, 2022.
